

**Four-Year Road and Non-Motorized Millage Proposed Projects 2017-2020**

**Washtenaw County Road Commission Projects**

**2017 Construction Year**

Summary - WCRC completed nearly 52 miles of road improvements using millage funds in 2017, completing all proposed millage projects. These improvement include a variety of treatments, including preventative maintenance, limestone resurfacing, mill and resurfacing and total reconstruction. Due to cost savings and availability in the schedule, WCRC was able to move the section of Geddes Road (Superior Township) to the 2017 schedule (originally scheduled to be completed in 2019). WCRC was also able to add two projects - Sutton Road (Northfield Township) and Willow Road (York Township) and expand the scope of two projects - Wagner Road (Scio Township) and Willow Road (Saline and York Townships).

**2018 Construction Year**

Summary: WCRC improved nearly 40 miles of road across the county, completing all proposed millage projects. These improvement include a variety of treatments, including preventative maintenance, limestone resurfacing, mill and resurfacing and total reconstruction. Due to cost savings and availability in the schedule, WCRC was able to move the section of Saline-Milan Road from Jewell Road to Judd Road (York Township) to the 2018 schedule (originally scheduled to be completed in 2019). Textile Road (Pittsfield Township) is still under construction and will be completed in the summer of 2019, it was delayed due to a labor dispute and weather.
