Blue Traditional Medicare Supplemental Coverage

Effective Date: On or after January 2024

Benefits-at-a-glance

This is not a Medicare document. It is intended as an easy-to-read summary of many important features of Blue Cross Blue Shield Supplemental health care benefits. It is not a contract. Additional limitations and exclusions may apply to covered services. For a complete description of benefits, please see the applicable Blue Cross Blue Shield certificates and riders. For more detailed information on Medicare benefits, please call or visit your local Social Security office or consult the Medicare handbook (available on the Medicare Web site at [medicare.gov](https://www.medicare.gov) or at any Social Security office).

Member's responsibility (deductibles, coinsurance, copays and dollar maximums)

Note: Medicare deductible and coinsurance amounts are effective January 1, 2024 and are subject to change yearly.

Preferred Rx Program ASC

Effective Date: On or after January 2024

Benefits-at-a-glance

This is intended as an easy-to-read summary and provides only a general overview of your benefits. It is not a contract. Additional limitations and exclusions may apply. Payment amounts are based on BCBSM's approved amount, less any applicable deductible and/or copay/coinsurance. For a complete description of benefits please see the applicable BCBSM certificates and riders, if your group is underwritten or any other plan documents your group uses, if your group is self-funded. If there is a discrepancy between this Benefits-at-a-Glance and any applicable plan document, the plan document will control.

Prescription Drug Discount Program - Prescription drug manufacturers provide coupon programs for certain medications. Your benefit plan requires you to take advantage of BCBSM-approved coupon programs for select medications. This benefit may lower the cost-sharing typically required for these drugs. Your out-of-pocket expense will be no more than your benefit cost-sharing. When a manufacturer coupon is used, only the amount you paid for the prescription will apply towards your annual out-of-pocket maximum.

NOTE: Adjustments may be required to accurately reflect your annual out-of-pocket maximum to reflect your true out-of-pocket cost.

This program may be discontinued at any time if it is no longer supported by the vendor.

Specialty Pharmaceutical Drugs - The pharmacy for **specialty drugs** is AllianceRx Walgreens Pharmacy, an independent company. Specialty prescription drugs (such as Enbrel® and Humira®) are used to treat complex conditions such as rheumatoid arthritis, multiple sclerosis and cancer. These drugs require special handling, administration or monitoring. You may also obtain specialty drugs through a Walgreens retail pharmacy as long as the drug is available at that location. You may want to call ahead to confirm availability at the location. **If you go to a non-AllianceRx Walgreens Pharmacy, you may be responsible for 100% of the cost of the specialty drug.** A list of specialty drugs is available on our Web site at bcbsm.com/pharmacy. If you have any questions, please call AllianceRx Walgreens Pharmacy customer service at 1-866-515-1355.

We will not pay for more than a 30-day supply of a covered prescription drug that BCBSM defines as a "specialty pharmaceutical". We may make exceptions if a member requires more than a 30-day supply. BCBSM reserves the right to limit the quantity of select specialty drugs to no more than a 15-day supply for each fill. Your copay/coinsurance will be reduced by one-half for each fill once applicable deductibles have been met.

Select Controlled Substance Drugs - BCBSM will limit the initial fill of select controlled substances to a 5-day supply. Additional fills for these medications will be limited to no more than a 30-day supply. The controlled substances affected by this prescription drug requirement are available online at bcbsm.com/pharmacy.

Member's responsibility (copays and coinsurance amounts)

Note: Your prescription drug copays and coinsurance amounts, including mail order copay and coinsurance amounts, are subject to the **same** annual out-of-pocket maximum required under your medical coverage. The following prescription drug expenses will not apply to your annual out-of-pocket maximum.

- any difference between the Maximum Allowable Cost and BCBSM's approved amount for a covered brand-name drug
- the 25% member liability for covered drugs obtained from an out-of-network pharmacy

Benefits	90-day retail network pharmacy	* In-network mail order provider	In-network pharmacy (not part of the 90-day retail network)	Out-of-network pharmacy

Features of your prescription drug plan

Custom Drug List

A continually updated list of FDA-approved medications that represent each therapeutic class. The drugs on the list are chosen by the BCBSM Pharmacy and Therapeutics Committee for their effectiveness, safety, uniqueness and cost efficiency. The goal of the drug list is to provide members with the greatest therapeutic value at the lowest possible cost.

- **Generic drug tier** - This tier includes generic drugs made with the same active ingredients, available in the same strengths and dosage forms, and administered in the same way as equivalent brand-name drugs. They also require the lowest copay/coinsurance, making them the most cost-effective option for the treatment.
- **Preferred brand-name drug tier** - This tier includes non-specialty preferred brand-name drugs. These drugs are more expensive than generic and members pay more for them.
- **Nonpreferred brand-name drug tier** - This tier includes non-specialty brand-name drugs for which there's either a generic alternative or a more cost-effective preferred brand-name drug available. Members pay more for these nonpreferred brand-name drugs.

Features of your prescription drug plan

Prior authorization/step therapy	A process that requires a physician to obtain approval from BCBSM before select prescription drugs (drugs identified by BCBSM as requiring preauthorization) will be covered. Step Therapy , an initial step in the "Prior Authorization" process, applies criteria to select drugs to determine if a less costly prescription drug may be used for the same drug therapy. Some over-the-counter medications may be covered under step therapy guidelines. This also applies to mail order drugs. Claims that do not meet Step Therapy criteria require preauthorization. Details about which drugs require preauthorization or step therapy are available online site at bcbsm.com/pharmacy .
Mandatory preauthorization	<p>A step-therapy approach that encourages physicians to prescribe generic, generic alternative or over-the-counter medications before prescribing a more expensive brand-name drug. It applies only to prescriptions being filled for the first time of a targeted medication.</p> <p>Before filling your initial prescription for select, high-cost, brand-name drugs, the pharmacy will contact your physician to suggest a generic alternative. A list of select brand-name drugs targeted for the preferred therapy program is available at bcbsm.com/pharmacy, along with the preferred medications.</p> <p>If our records indicate you have already tried the preferred medication(s), we will authorize the prescription. If we have no record of you trying the preferred medication(s), you may be liable for the entire cost of the brand-name drug unless you first try the preferred medication(s) or your physician obtains prior authorization from BCBSM. These provisions affect all targeted brand-name drugs, whether they are dispensed by a retail pharmacy or through a mail order provider.</p>
Elective lifestyle drugs	<p>Benefits are excluded for elective lifestyle drugs.</p> <p>Note: Elective lifestyle drugs are lifestyle drugs that treat sexual impotency or infertility, or help in weight loss. They are not designed to treat acute or chronic illnesses. These medications are prescribed for medical conditions that have no demonstrable physical harm if not treated. (Smoking cessation drugs are not considered an elective lifestyle drug and are a payable benefit.) BCBSM determines when a drug is an elective drug.</p>
Maximum allowable cost drugs	<p>When you receive a generic maximum allowable cost (MAC) drug from an in-network pharmacy, you pay your cost sharing as noted in your coverage.</p> <p>Select brand-name drugs will apply the generic cost share amount found in your cost-share rider. To determine your cost share tier please refer to our website: www.bcbsm.com/pharmacy.</p>
Quantity limits	To stay consistent with FDA approved labeling for drugs, some medications may have quantity limits.
